## ENDPOINT BASELINE

The All IT Security Baseline Program adheres to the CIS Controls, applying the latest security standards to devices. This customised framework ensures security measures fit each client's needs—it's not a one-size-fits-all approach.

All IT provide Endpoint Management & Security Services to our Managed Clients and also outsources this service to internal IT teams. We offer either full control or a managed approach, available 7 days a week, reducing headaches and escalations for your IT team.
